Caller pays £0.00p
*UK Numbers with
Freedom & Control
Anywhere! Anytime!*

What is a Freephone Number?

An **0800 or any other 080 toll-free telephone number or freephone number** is a telephone number that is billed to the end-user for all incoming calls instead of incurring call charges to the originating caller. For the calling party, a call to a toll-free or freephone number is free of charge.

Freephone 0800 Numbers are a great way to increase sales as they enable potential customers to call your business for free from any UK landline or mobile phone.

Freephone 0800 numbers can give your business highly professional national image and are proven to increase response to sales and advertising by enabling your clients to call you for free. Under the new Ofcom regulations, from July 2015, all our Freephone 0800 Numbers will also be free to call from mobiles; great news for you and your callers!

By using multiple Freephone 0800 Numbers for your business offices and departments or advertising and marketing campaigns you will be able to utilise the full potential of our free real-time call statistics. With Freephone 0800 Numbers it's easy to reduce your advertising costs by monitoring the call statistics and the response each advert or marketing campaign generates.

Whether you use Freephone 0800 Numbers for advertising and marketing or sales lines, you can be sure of great return on investment. If your business deals with consumers we recommend [0330](#) numbers or Freephone 0800 Numbers for after sales and complaints lines.
