

Wholesale VoIP Call Termination - A-Z Termination, UK DID, SIP, H323

FranzCom is the premium-quality provider for Wholesale VoIP Termination of the international telecommunication traffic. We provide our customers with the lowest wholesale VoIP termination rates for international calls to any destination in the world. Calls are going through our network and reaching each and every country on the globe.

FranzCom terminates large quantities of wholesale VoIP traffic worldwide. Due to our considerable telecom traffic in wholesale minutes, we have some of the best international rates on the market, and therefore are able to pass these savings to our clients.

FranzCom provides wholesale VoIP termination through regular PSTN interconnections with many different world's leading telecommunication carriers. Its own unique on-line intelligent routing engine applies for each incoming call the highest-quality route for the moment available. As the result FranzCom is able to provide the best quality-cost balanced wholesale VoIP termination service on the market: the cheapest rates available for the really working routes!

The FranzCom's network is supported by a 7/24 Network-Operation-Centre, ensuring the permanent high quality of our service.

FranzCom offers a predefined blended Smart Routing Plan for wholesale VoIP termination services with balanced cost-quality routing. For each call system applies the cheapest VoIP route from the list of quality-accepted available routes for the moment.

-
